¹ Upon review of a photocopy of the PTO's file copy of the current patent application, the undersigned noticed that page 11 was missing. This contrasted with the records of the undersigned, which indicated that page 11 was present in the application as originally filed (by another law firm). On April 29, 1997, the undersigned contacted the Examiner to confirm if page 11 was in the PTO application, or if it was a copying error on the part of the individual who photocopied the PTO record under a Power to Inspect. The Examiner indicated that according to the PTO record, page 11 of the application was not present. However, upon further inquiry and inspection, the Examiner informed the undersigned that page 11 was in fact present in a working copy of the application. The undersigned then concluded, and the Examiner agreed, that page 11 was present in the original filing but through no fault of Applicant was inadvertently misplaced out of the PTO file. To support this conclusion, Applicants note that the Examiner had in fact referred to page 11 in the Office Action of February 4, 1997 (Paper No. 12), thus, confirming its presence in the PTO record. Therefore, since Applicants are now requesting an amendment to page 11, it is respectfully requested that the Examiner follow the proper route to reinsert page 11 from his working copy into the present application so the PTO's version of this application is complete and the requested amendments to page 11 can be entered.
